

Steps towards a "Greener Campus"

1. Carry your lunch in a reusable lunch box
2. Use public transport
3. Save water whenever possible
4. Use a refillable water bottle instead of buying bottled water
5. Turn off lights and fans whenever you leave the room
6. Unplug electrical devices when not in use
7. Switch from incandescent bulbs to fluorescent and LED bulbs
8. Minimize using polythene bags as much as possible. Ex- Refuse the polythene bag when you purchase milk packets from the milk bar
9. Switch to reusable bags instead of using polythene bags
10. Minimize food wastage
11. Keep the doors closed when air-conditioning is in use
12. Print as little as possible
13. Use electrical means for sharing documents thus minimizing printing and paper usage ("Go paperless")
14. Sort through garbage as recyclable waste, degradable waste etc. and dispose them accordingly.
15. Establish a composting plant to dispose food and degradable food waste
16. Stop littering
17. Opting for proper management of e-waste.

Suggestions from Zoology
Dept. of Resc.
